The Gift of Language

The background of the image is a deep blue night sky filled with numerous stars of varying colors, including white, yellow, orange, and red. Some stars have prominent diffraction spikes. At the bottom of the image, there are dark silhouettes of trees and foliage, suggesting a landscape view of the night sky.

As language educators
we are providing
learners with
opportunities we cannot
yet imagine.

Everyone who remembers their own
education remembers teachers, not
methods and techniques.
The teacher is at the heart of
education.

good teaching cannot be reduced to
technique;

good teaching comes from the
identity and integrity of the
teacher..”

Parker J. Palmer

If we fill today's classrooms with love, integrity, global vision, and hope; our students will fill tomorrow's world with love, integrity, global vision, and hope!

What are information gap activities?

<https://en.yabiladi.com/articles/details/59160/2017-global-report-morocco-bottom.html>

- There is a “gap” or missing information. One student does not have the same information as the other student(s).
- Each learner has different pieces of information, that they must share.
- The giver and receiver must communicate accurately through speaking and listening.
- Learners practice taking turns and asking and answering questions.

Divide the information into two or more parts so that students must get the information from each other.

Be sure that students cannot see each others' work!

All of the Information

Half of the Information
(Partner A)

Half of the Information
(Partner B)

Planning for Information Gap Activities

- Is it connected to the lesson can-dos/learning targets?
- Does it build language proficiency?
- Is it age-appropriate?
- Is it appropriate for students' proficiency levels?
- Are there clear directions for accomplishing the task?
- Do students have the target language they need to accomplish the task?

When planning Information Gap Activities, REMEMBER:

<https://thenounproject.com/icon/remember-1549579/>

The purpose of information gap activities is to **practice** language and content in a meaningful context , not initially teach it.

Partners ask each other for complete schedule

The schedule is divided in half and each partner has part of it.

Here is an example of how you might create an information gap activity using an online Chinese shopping site.

You can use any topic related to what you are working on in your curriculum.

activity?

What makes a meaningful task/activity?

1. Real-world tasks/authentic tasks

2. Language targets

3. Engaging all learners

What makes a meaningful

1. Real-world tasks/authentic tasks **task/activity?**

There is a specific outcome, not just practicing language

Students are not just using **empty** language and repeating after the teacher or practicing a memorized dialogue.

Students do activities & solve problems that **are** similar to tasks in the **real world.**

The task has a context and is meaningful and purposeful

What makes a meaningful

2. Language Targets **task/activity?**

90+ % Target Language. Avoid Translation

Focus on on language goal and class learning target

Focus on language chunks and connected discourse, not just one word.

Be careful with silent activities.

What makes a meaningful

3. Engaging all learners task/activity?

Create a system for calling on all students randomly not just volunteers.

Plan for what the rest of the class is doing when only one student is responding.

Posing a question to the whole class before calling on one student to answer.

What makes a meaningful
task/activity?

How can we improve
these 2 activities?

Circle Chain Drill

- Teacher starts with a question that the first student must answer.
- That student must ask the next student the same question.
- The question and answer goes all the way around the circle one student at a time.
- In this way everyone has had a chance to speak at least once.

The Quiet Game

- In this game the teacher holds up a certain picture or object representing vocabulary word you are reviewing.
- The teacher keeps naming vocabulary words, and the students stay quiet until the teacher says the vocabulary word that represents the picture or object that the teacher is holding.
- When the teacher says the correct word, the students repeat the word and say it out loud..

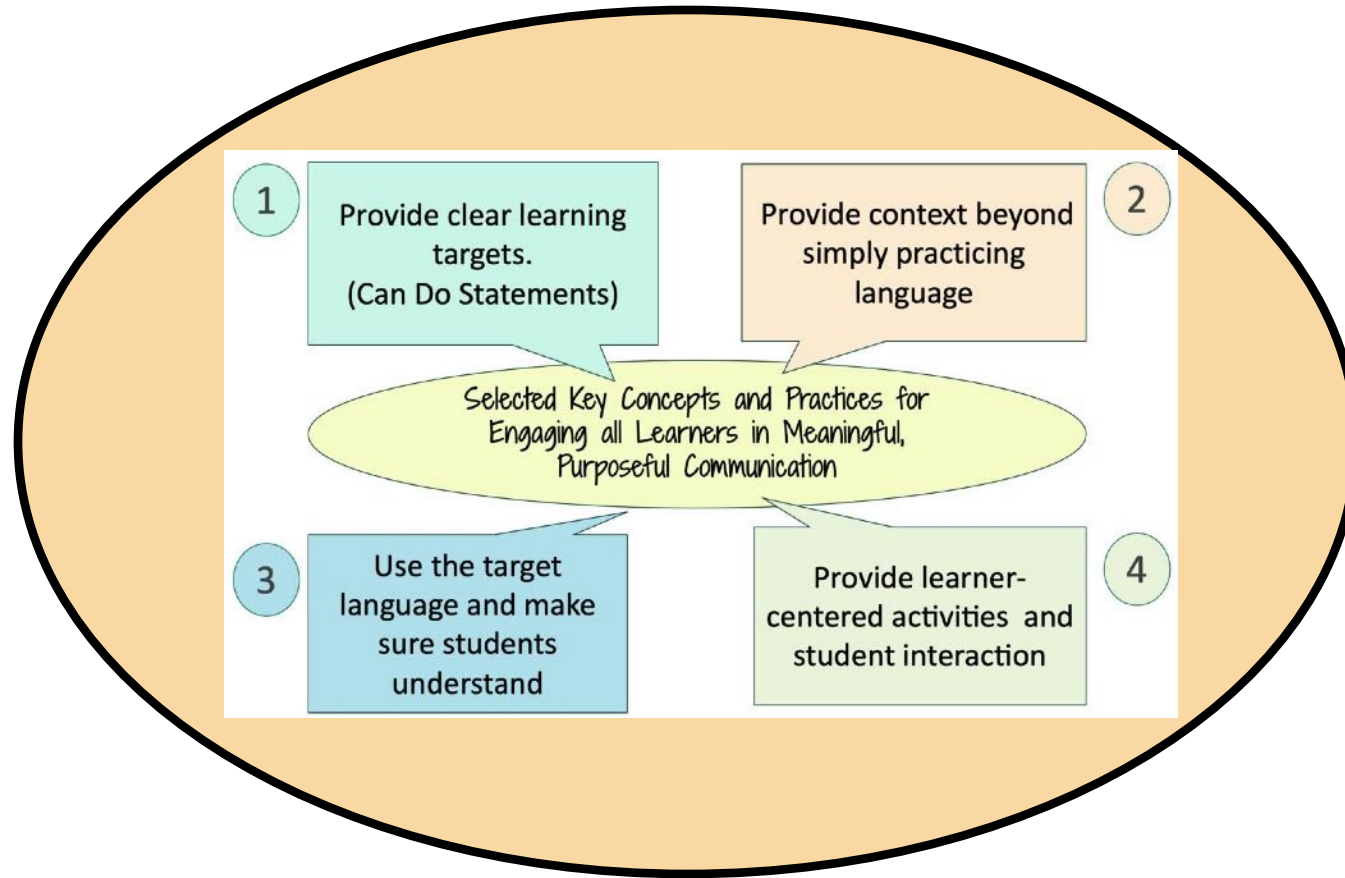

What makes a meaningful task/activity?

1. Real-world tasks/authentic tasks

2. Language targets

3. Engaging all learners
